

Quality Steam Generators Backed By Superior Customer Service

A Single Source Satisfies.

With a Clayton steam generator you can count on:

- Round-the-clock emergency service from factory-trained personnel
- Service calls scheduled at your convenience
- Preventive maintenance programs
- Operator training on-site or classroom
- Flexible rental programs
- Boil out and passivation
- Seasonal start-ups and shutdowns
- Application of a complete line of water treatment chemicals
- Combustion analysis and tuning
- Genuine Clayton parts inventories and water treatment chemicals in company facilities around the world

Clayton
INDUSTRIES

Doing Many Things Well. Clayton Customer Service Includes a Broad Array of Benefits

A Single Source Satisfies

Clayton steam generators, setting world standards since 1930 for operating efficiency, fuel savings and safety, are backed by extraordinary customer service. More than 150 Clayton service professionals are on call in the United States, Canada, Mexico, Europe, Asia and South America.

Preventive Maintenance

Clayton provides preventive maintenance programs tailored to fit your company's needs. The typical preventive maintenance visit includes a multi-point check of mechanical and electrical components to optimize the operation and reliability of your boiler system. PM programs are provided at any frequency you desire, at your convenience and also include ongoing operator training.

A Complete Line of Chemicals

Clayton offers a complete line of Coil Guard® water treatment chemicals formulated to assure optimal steam generator performance. Coil Guard products are blended for maximum effectiveness and convenience. Additionally, you benefit from the AWARE Program, which helps you maintain Clayton's water treatment specifications. As a water treatment customer you have at your disposal a dedicated chemical service group whose sole responsibilities are to be familiar with your water treatment/steam system, and to advise on your use of Coil Guard products.

The Clayton Rental Program

Need steam unexpectedly and in a hurry? Our steam generator rental plan delivers a complete skid-mounted steam generating system that includes water softeners, chemical feed pumps, condensate receiver tank and utility connections.

Around the Clock – Clayton's friendly customer service is available 24 hours per day.

On Location – Knowledgeable and experienced Clayton professionals solve steam generation problems at your plant.

Eager to Serve – Clayton's customer service experts respond to customer needs worldwide.
