

SigmaFire Packaged Skids

The Next Generation of Clayton Steam Generators

SigmaFire 100 BHP Packaged Skid.
Includes the Steam Generator, Feedwater Pump,
Vertical Feedwater Tank, Blowdown Tank, Water
Softeners and Chemical Pump.

The unique modular design of the *SigmaFire* Steam Generator and ancillary feedwater components results in a system that can be easily packaged with all wiring and piping completed at the factory. The packaged system can either shipped complete or in modules that can be re-assembled on site with quick-connect fitting. Individual modules easily fit through small openings and can be reconnected as a packaged system. Clayton packaged skids reduce installation time and costs plus they ensure complete system compatibility and integrity.
